TROY STREET DIRECTORY

Giving the name of each street and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.

This Company owns the entire water power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse power. The Company's gate house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse power, and, considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water powers in the country have failed for a time, Cohoes has had an abundant supply without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty-five thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

The ..Troy Press..

Has a commanding circulation, excelling by thousands any of its contemporaries. It is read by all sorts of people, but more universally in the homes of the great middle class, which forms the backbone of the purchasing public. Its local advertising patronage is the largest, and the leading merchants of Troy freely acknowledge that the benefits accruing from the Press transcend those from any other medium. It is a COMPLETE NEWSPAPER, with miscellaneous and unique features, pictorial and others, to enhance its sales, and every department is carefully edited. In brief, the Troy Press speaks for itself, and any trained advertiser will discern its character and evident prosperity by scrutinizing its pages. Convenient in form, neatly printed, and habitually giving the fullest and freshest news, it challenges comparison and invites the attention of all up-to-date advertisers in legitimate lines of trade.
